

World Peace (by Sobiya Mujtaba of Class 0-10)

World's peace is fleeing,
world's peace is disappearing.
by the hands of those who hate humanity,
and only wish for their own prosperity.
have enough lives not been lost in past wars?
why the peace pigeon is locked behind bars?
Do we not all want peace?
do we not want everything to be at its ease?
why are we destroying our own homes?
why are we making then the humanity tombs?
we are making deadly weapons,
by their use not good fruits are ripen.
Their effect last for hundred of years,
why have to take joint measures to prevent wars.
Learn the value of human life,
and to stop slaughtering thousands of people with one knife.
If we continue like this,
the earth will curse itself for holding such humans,
peace will become scarce,
and become a thing of past,
for a second even it will not last.
Peace will be a lost identity,
There will be no such thing as pity.
